Wallbox COOKIE HOME / PRO
Mode 3 electric charging system

The COOKIE HOME / PRO wallbox is a practical Modo3 charging system that connects to the Beagle Plug management platform. It is equipped as standard with the device for detecting the dispersions on the side of the car (mandatory by law), thus reducing the costs of realization of the electrical system.

The COOKIE HOME / PRO wallbox features state-of-the-art technology to provide maximum charging performance.

MAIN FEATURES
- Always connected via Wi-Fi or LAN.
- Management by APP
- 4.3" TFT LCD color display
- Integrated protection against DC leakage.
- RCD Type A integrated to reduce electrical system costs (in the HOME version)
- MID certified meter (PRO version)

GENERAL SPECIFICATIONS
- Connector type: Type 2 socket (IEC 62196-2)
- Dimensions: 460 x 315 x 135 mm
- Weight: 5 kg
- Compatible with SDLM via SDLM Box

ELECTRICAL SPECIFICATIONS
- Maximum output: 7.4 kW (1P) / 22 kW (3P)
- Maximum current: 32 A
- Nominal frequency: 50 Hz / 60 Hz
- Input voltage: 110/230 V AC 10% (1P) / 400 V AC 10% (3P)
- Configurable charging current from 6 A to 32 A
- Protection: IP54 / IK08
- Overvoltage category: CAT III
- Residual current detection: DCLeakage 30mA (CA) / 6mA (CC) + RCD Type A 30ma
- Protection against direct contacts: Shutter (HOME version)
